

A WHOLE FAMILY ILL FROM POISON IN COFFEE

A. P. Cunningham And His Wife of Chester Are Confined to Their Beds.

THE CHILDREN ALSO BECOME VIOLENTLY SICK

Boarder Who Did Not Drink the Liquid Remains In His Usual Health.

VICTIMS IN GREAT AGONY AFTER NOON MEAL

The whole family of A. P. Cunningham, who resides near Third street, Chester, were poisoned by coffee yesterday at their noon meal. Those who are suffering from the effects of poison are Mr. and Mrs. Cunningham, their son, Lewis, their daughter, Annie, and the baby.

Some of the coffee is now in the hands of Druggist C. T. McCutcheon, of Chester, who will analyze it at his earliest opportunity and report if there was any arsenic in it. Dr. Lewis is positive in his diagnosis that the poisoning resulted from arsenic, but has not given a full statement of the case, being out of town today.

The case of Mrs. Cunningham is now perhaps the worst, as she drank more of the coffee than the others. She was however, able to give a meager account of her suffering this morning. From present conditions it is thought both will probably recover from the effects, but not for some days.

A neighbor lady is kindly assisting them. The family are very well-to-do and much respected. Citizens deeply sympathize with them. The children were about the house as usual this morning, and have about recovered from the effects of the drug.

The home was visited by a News Review reporter this morning. He found Mr. and Mrs. Cunningham still confined to their beds, Mrs. Cunningham being very weak, while both were suffering a great deal from the opiates that had been administered. The doctor's heroic efforts undoubtedly saved the lives of all members of the family.

EXTRA SESSION OF LEGISLATURE

It May Be Necessary to Repair Blunders Supreme Court Has Found.

LEFT IN A CHAOTIC STATE

Are Several Sections of the State on Account of Acts Now Annulled. Code Bill May Be Necessary—Trouble For Tom Johnson.

From a Staff Correspondent.

Columbus, June 27.—The sweeping decisions of the supreme court, Thursday will, it is generally believed, make an extra session of the legislature inevitable. Briefly summarized, the court holds the Royer act to be valid; decides that a vacancy existed in the office of lieutenant governor and declares unconstitutional the Cleveland charter law and the police ripper bill for Toledo. The decisions are the most important and far-reaching ever handed down from the Ohio supreme court bench. The action of the court in upholding the Royer act cuts out its jurisdiction in about 95 per cent of the cases in error and makes the circuit court a court of last resort in these cases.

The question of the court's jurisdiction was raised in two cases from Tuscarawas county in which Hon. John C. Welty, of Canton, contended the court had no authority to act and on this ground he filed motions for the dismissal of both actions. Both motions were allowed by the court, and the victory achieved by Mr. Welty is a notable one.

If a special session of the legislature is called for the purpose of correcting the defect in the Royer law as well as enacting other legislation rendered imperative by reason of the unconstitutionality of other acts, Mr. Welty will become known as an important factor in bringing it about.

Some profess to believe that the decision bearing on the Cleveland charter law and Toledo police bill will make necessary the enactment of a municipal code, as the action of the court declares invalid the system of classification of Ohio cities.

In the Cleveland case the court

stayed the judgment of ouster until October 2, with the idea in mind that the governor will call an extra session to deal with the question which this decision places squarely before the people. The decision divests Tom Johnson of much power and deprives him of his cabinet officers. It knocks out his entire board. The Toledo decision restores Mayor Jones, of that city, to power. The act declared unconstitutional provided for the appointment of a police board by the governor and took all police power out of the hands of the mayor. The decision ousts the new board.

William Daugherty, of Salem, assault with intent to kill L. L. Wilson.

John Griffith, of Lisbon, for unlawfully interfering and impairing railroad property.

Frank Haskins, two indictments for burglary and larceny. One for N. E. Blackburn's store in Wellsville, where he stole \$13 worth of jewelry; the other, T. A. Loyd's store, Wellsville, where he stole \$158.50 worth of cloth and clothing.

Fred Bradley, of East Liverpool, burglarly and larceny. He stole brass

Henry Scheckler, of Wellsville, buying stolen property. He bought the stolen brass from Bradley.

Jacob Fickes, of Yellow Creek township, breaking open a mansion house, and committing personal violence therein. They found that he entered the house of John P. Forbes, where he assaulted Lizzie C. Pedder, threatening and beating her.

In the case of Buchheit, the jury found that he had made an assault on John Drayer; that he struck and kicked Drayer, and made a mortal wound four inches long and three inches deep on the back and side of his head.

A true bill was not found against Oliver Huffman, of Wellsville, or against Al Rutter and Mrs. Alice Rutter, of Salem, for infanticide, as no proof of the charges was produced. The arraignment will take place tomorrow.

FOR THE REPUBLICAN STATE
EXECUTIVE COMMITTEE.

Eighteenth Congressional District Well Represented in Its Make-Up.

Columbus, June 27.—(Special)—The Republican state central committee met in this city yesterday afternoon and selected an executive committee which will have charge of the fall campaign. The temporary officers selected at Cleveland, John B. Clingerman, chairman, Springfield; W. C. Wallace, secretary, Columbus, were made permanent. The officers of the old executive committee were re-elected as follows: General Charles Dick, chairman; John R. Malloy, secretary, and W. F. Burdell, treasurer. Hon. Isaac B. Cameron, of Lisbon, was made a member of the executive committee. John H. Fitch, of Youngstown, was re-elected to membership.

Julius Whiting, Jr., of Canton, was present as the representative of the Eighteenth district. The fact that each county in the district has a personal representative on a committee may be taken as indicative that the Eighteenth will play an important part in the conduct of the campaign.

FAMILY ROWS AIRED IN COURT

Startling Stories of Abuse And Wrong-Doing Brought In Divorce Court.

CHILDREN KNOCKED ABOUT

Beaten With Whips, Pokers And Shovels And a Lad Made Drunk.

WOES OF WEDDED COUPLES

Lisbon, June 27.—(Special)—The divorce case of Eli Flickinger, of Columbiana, versus Alice Flickinger, was tried in common pleas court yesterday. They were married in 1890 and have three children. The couple separated last January and both asked a divorce and the custody of the children. She also entered a claim for alimony. The case was hotly contested, able legal talent appearing on both sides. There were many sensational features. Remarkable ability to prevaricate was shown by the witnesses. Almost every important statement made on one side was flatly contradicted by the other. Fourteen witnesses testified for the plaintiff and 15 for the defendant.

Mr. Flickinger took their little boy, his wife and Bert Miller asleep on a couch in his house at 5:20 a. m. Much testimony was introduced by him to show that Miller was a frequent visitor and several times narrowly escaped meeting Flickinger. Mrs. Flickinger left her husband and came to live with her father in Lisbon about the time that Miller came here to work. He alleges that they were often together here. There was also testimony that both parents abused the children, beating them with whips, sticks, pokers and shovels. The defendant introduced testimony showing that at the time of her separation Flickinger struck her in the face and choked her until she fainted.

Mr. Flickinger too their little boy, Joseph, to Leetonia on several occasions and gave him beer and whisky and made him drunk.

Lyde Race, a woman of bad reputation, lived at the Flickinger home for a year. Husband and wife blamed each other for keeping her. After their separation Mrs. Flickinger with her children, lived with her father, Henry Albert, in Lisbon. Flickinger then accused her of infidelity, claiming their child, Carl, was not his. He drew a revolver and threatened to kill both her and himself, it was stated. Judge Hole decided that neither was entitled to a divorce and that the children should remain in the mother's care. He also refused to grant her alimony. Mrs. Flickinger fainted when she heard the judge's decision, the children wept and there was an unusual scene in court.

Martha M. Sinclair, of St. Clair township, was granted a divorce yesterday from Warren H. Sinclair, and given the custody of their children, Jennie, Fred, Wilbur and Rachel. The grounds were gross neglect, desertion and non-support.

The petition of Elizabeth Medsger, of Leetonia, for divorce from George E. Medsger, has been dismissed. The plaintiff charged unfaithfulness.

The divorce case of E. Nora Wilhelm against Willard J. Wilhelm, of Leetonia, has been dismissed. They were married in 1890. She claims that he was unfaithful to her and named Mrs. Lizzie Betz as co-respondent. About two years ago Mr. Wilhelm was sued by Mrs. Betz for \$5,000 for alienating his wife's affections. The jury were unable to agree and the case was dismissed.

EAST END
PROMISCUOUS SHOOTING

Dangerous to Boatmen on the River and to Other East End Residents.

Promiscuous shooting of firearms in the East End districts will have to be stopped immediately, or some innocent person will be wounded or killed. Never before has there been so much of this kind of shooting in the East End. Last evening several persons who were boating on the Ohio river had narrow escapes from being killed.

William Price, a well known pottery worker, was in a skiff between the island and the Ohio shore. In the skiff were several small children. They were on the water but a short time when shooting was heard and splashes were seen in the water as the skiff was passing along the shore. Some person or persons whose names are not known were shooting a revolver toward the river. One bullet whistled over Mr. Price's skiff, and fearing some injury would happen the children, he pulled to the shore and sent them home. Others who were walking along the bank heard the shots, saw the bullets splashing, and shouted for the shooting to be stopped.

There is not an evening that there are not from two to a dozen skiff parties out on this part of the river, and the pastime of shooting is extremely dangerous. There is an ordinance against the discharge of firearms in the city limits and the penalty is quite severe.

SLAVONIC CHRISTIANING

An Unusual Event Occupied the Attention of Foreigners in the East End.

"And his name shall be John." Such were the words pronounced in native tongue by a Slavonic priest of McKeesport, Pa., at a christening which took place at the home of Mr. and Mrs. George Kohut, on Virginia avenue near the East End fire station yesterday. It was the first time that such an event was ever held in the East End, and it was a signal for all the foreigners employed at the sewer pipe works to take a day to attend the festivities.

The babe that was the center of attraction was born last Saturday, and arrangements for the christening were commenced Saturday evening. No arrests were made.

Lights Are Wanted.

The opinion is growing in the East End that the board of education should place several incandescent lamps about the Horace Mann school building on Erie street, similar to those that were placed about the Central building several months ago. Persons residing in the vicinity of the building claim that the actions of some people who loiter about the building after dark would be stopped if there were a few lights about. The committee in charge of the school will likely be asked to place lights very soon.

Labor Scarce in Georgetown.

Persons from Georgetown who were in the East End today state that very slow progress is being made on the new four room school building now under course of construction there. Practically all the material for the building has been delivered to the site, but the statement is made that a scarcity of labor is the cause of the slow progress.

Wedding on July 4.

Announcement of the approaching marriage of Miss Eliza English, of St. George street, and Mr. J. E. Herbert, of Maple street, was made today. The wedding will take place July 4, and the ceremony will be performed by Rev. N. M. Crowe. The young people are well known in the East End, and they will make their home there.

Funeral of Charles Ross.

The funeral services of Charles Ross will be held at his late home in Calhoun's addition, tomorrow morning at 10 o'clock. The services will be in charge of Rev. George W. Orcutt, of the Erie street M. E. church, and Rev. D. W. McQuiston, of the Second U. P. church. Interment will be made at Riverview cemetery.

Larkins & Ferguson have a bunch of asparagus on exhibition which is the largest ever seen in this part of the city. The several sticks are about 20 inches in length.

Rev. D. W. McQuiston stated this morning that his family were expected to arrive in the East End in a few weeks. His household goods have not yet arrived, but are expected soon.

THIS IS A FACT

There Is No Question About It—It Is a Plain Statement of Facts Made By an East Liverpool Citizen.
Mrs. Margaret Tracy, of No. 178 Seventh street, East Liverpool Ohio, says: "One of my family was very nervous, subject to nervous spells, weak and miserable, could not sleep, and the digestion was very poor. I asked the invalid to take Dr. A. W. Chase's Nerve Pills I got at Larkins' drug store. The result was splendid, the medicine built her up, enriched the blood, made the nerves strong, gave restful sleep and so strengthened the stomach that digestion is perfect. The old-time languid, played-out feeling has given place to one of strength and energy, and as a result we are more than pleased with the medicine."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers of Dr. A. W. Chase Medicine Company Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package:

New London, Conn., June 27.—Rowing within 10 seconds of record time the Yale Varsity crew yesterday afternoon lowered the colors of the fastest eight that Harvard has yet produced. In the freshman race Yale's crew led over the last mile until within a few feet of the finish, where the Harvard crew, by a magnificent spurt, jumped their shell up even with the blue. The judges were compelled to decide that the race was a draw.

Gov. Nash Signed Extradition Papers For Ex-Official, of Ohio.

LARCENY OF \$39,360 CHARGED

He Was Vice President of Failed Manhattan Insurance Company, of New York—Placed Under Arrest to Prevent Extradition.

New York, June 27.—The district attorney of this county yesterday received a telegram from Columbus, Ohio, saying that Governor Nash had signed extradition papers at the request of Governor Odell for the apprehension of William H. Hahn, former vice president of the insolvent Manhattan Fire Insurance company, who has been indicted here for grand larceny.

Hahn was for many years a prominent figure in Ohio state politics. He was Republican national committee man from 1892 to 1896, when he was succeeded by Senator Hanna. He was at one time state insurance commissioner of Ohio, and was chairman of the state Republican committee at the time Mr. McKinley was elected governor. He was also president of the Mansfield, O., National bank for many years.

Hahn Accused of Larceny.

Assistant District Attorney Garvin said yesterday that Hahn was vice president of the Manhattan Fire Insurance company, which went into the hands of a receiver on May 7, 1901. The company failed with liabilities of over \$600,000, while the tunable assets were about \$200. Just before the company failed a statement had been filed with the state insurance department showing the unpaired capital stock to be \$500,000 and a surplus of liabilities over assets of \$40,000.

Hahn was jointly indicted with Daniel C. Myers, former president of the company. The investigation into the affairs of the company by the officials here, it is said, showed that the correspondence and books of the concern had been carried out of the state, and the district attorney, who was acting for the state insurance department, was greatly hampered thereby. Myers, who was president of the company, was arrested in Columbus last August, being charged with the larceny of \$27,000. Hahn is charged with the larceny of \$39,360.

Move to Prevent Extradition.

Mansfield, O., June 27.—As soon as the news was received here yesterday, shortly before noon, that Governor Nasar had decided to honor the requisition for William Hahn, charged with grand larceny, his attorneys set about to circumvent extradition. Mr. Hahn was here awaiting the decision.

The governor's decision that the offense charged constituted a crime under the laws of Ohio, as well as of New York, led to the preparation of an affidavit by Prosecuting Attorney W. H. Bowers, of this city, charging the same offense as that for which Mr. Hahn is under indictment in New York. A warrant was issued for Mr. Hahn and he was arrested in the office of his local counsel, Judge Brucker, and taken to the mayor's office, where he pleaded not guilty to the charge of grand larceny. It was decided that the preliminary hearing should be had in mayor's court next Monday morning. The defendant's attorney did not offer bail and the defendant was left in charge of Chief of Police Weil.

Got Ahead of the Sheriff.

Just after this preliminary Sheriff Payne put in an appearance at the mayor's court, having received instructions from the attorneys representing the district attorney of New York, to arrest and hold Hahn. When the sheriff found that he was too late and that the defendant was already in the custody of the chief of police, he made no attempt to take him but notified the governor of the turn affairs had taken and received advice from that official to do nothing until the arrival of the papers and the representative of the New York officials from Columbus. WHAT MISS JULIA McCORMICK SAYS FOR LIFE PLANT.

Canton, O., May 22, 1902.

The Life Plant Co., Canton, Ohio.

Gentlemen:—Three years ago I was very sick; had no ambition whatever and was run down until I was miserable. I heard of Life Plant and decided to try it. Took two bottles of the medicine and it cured me. I had so much faith in it then that I advised many of my friends to try it. They did so with excellent results in every case. I could name many who have been cured of different troubles by Life Plant. One in particular was cured entirely of catarrh and many others were cured of different diseases. I consider it the best medicine for all blood diseases, General Debility, Asthma, Stomach Trouble, etc., that is made, and advise all who are suffering from such troubles to take Life Plant. I am never without Life Plant and take it at intervals as a tonic. Life Plant is the best medicine I have ever taken.

Yours respectfully,

JULIA McCORMICK.

The death of young Charles Ross in the East End adds another to the long list of victims of carelessly handled revolvers. Such cases are so frequent that they attract little attention in the newspapers or elsewhere. If there is an official investigation it results in a verdict of "nobody to blame," and the case is dismissed from the records and from the public mind. But there is blame to be placed nevertheless. It should fall on those addicted to the revolver-carrying habit. In this day of enlightenment there is little need that anybody, aside from the officers of the law, should carry a weapon. Those who carry one make the excuse that they do so for their own protection.

The revolver is a very poor protector, as innumerable statistics prove. Probably nine times out of ten when it shoots anybody it shoots the owner or some other inoffensive person, and very rarely does it kill or wound one who deserves to be shot. Even those who are experts in its use become careless and wound themselves or others, then make the old excuse that they did not know it was loaded. It should be the first care of every person owning a weapon to know whether it is loaded or not, and to handle it at all times as if it were loaded. But it is not in the hands of those who know how to use it that the revolver does most damage. Ignorant men, drunken men, and even women and children are suffered to carry concealed deadly weapons, although it is against the law everywhere. Half the murders that are committed would never occur but for the fact that people who have no business with firearms have them in their possession.

The sale of revolvers and other weapons should be as carefully guarded as the sale of poisons. No druggist is allowed to sell strichnine unless he knows the use to which it is to be put; no reputable merchant would sell a can of dynamite to a child or a person ignorant of its nature. Yet every person with money enough to do it can walk into a store and purchase pistols and cartridges with as much ease as he can purchase tea or nails. And yet experience proves that the pistols slay hundreds where dynamite and poison slay only in isolated instances. The sale and use of weapons needs to be restricted. They were necessary to the pioneers, when a hostile Indian might lurk behind every stump, and they may still be necessary where bandits and brigands roam the country. But the average citizen of Ohio has no need for them, and they should be kept out of the hands of all save those who need them, and who are licensed to carry them.

Now an extra session of the legislature is talked of to unmake some of the laws made by the general assembly last winter. Recent decisions of the supreme court are a sad commentary on the folly of rushing bills through the legislature without analyzing their provisions and studying their probable effect. Not only is the supreme court stripped of a great portion of its authority, but the city of Cleveland is likely to be deprived of a government; county salary laws, instead of being simplified, have been made chaotic, and other measures that were thought to have been fully debated and duly considered are found to be unconstitutional. With a state attorney general always on hand to advise the legislature and with a great portion of its membership made up of lawyers, such a showing is inexcusable. When will men, who are

instructed with duty of legislating for a great state, learn that haste makes waste, and that laws, in order to stand the tests of the courts, must state what they mean in terms not to be misconstrued?

Ohio has a new Lieutenant governor. His duties, just at present, are not likely to prove burdensome.

King Edward and his people are both to be congratulated.

POTTERY NEWS

It is probable, says a Trenton paper, that within a short time the Trenton saggers will withdraw from the Kilmen, Dippers and Saggers' local and form an independent local of their own.

A special meeting of the pottery trade was held last night at the headquarters of the National Brotherhood of Operative Potters, in the Ribson building, when the question received a lengthy discussion. At present, with three trades affiliated together in one local, the saggers claim that their interests cannot receive proper attention, because they are in the minority. They hold that most of the meetings are taken up in the discussion of matters pertaining to the kilns. There are enough organized saggers to form a local of their own, and they claim that if they were provided with a separate organization they would be better able to pursue their efforts to obtain new members. The proposition for a separate union is looked upon with favor by the Brotherhood officials, and it is likely that in the near future the saggers will secure a decree of separation for which they have petitioned.

The prediction is made that the manufacturing potters of this city will be offered an exceptionally large fall trade. It is a known fact that trade with the local manufacturers during the past six months was not up to expectations, and the same can possibly be said with a degree of conservativeness of the pottery industry all over the country. But the population of the country is increasing, and the use of ware will be continued just the same. Inasmuch as the jobbers and retailers have not been buying heavy, at some time in the near future their stock will become quite low. No need to mention the result when such conditions prevail with the buyer. His stock is replenished, orders commence to come in and business is once more at its desired standard. Such are the conditions which confront the manufacturers for the closing six months of the year. The future is most bright for the manufacturers of this city, and more than one manufacturer has said so within the past fortnight.

Part of the kilns at the Taylor, Smith & Taylor pottery are off duty now. The rest of the crew will go off duty Saturday until after the Fourth.

The regular meeting of mould makers' local No. 22 was held Wednesday evening, but routine business occupied the entire session.

report of the auditing committee will be presented at this session, so that the officers elected a few weeks ago will be able to take their seats next week.

James McDermott, who has been employed as cask boy at the McNicol pottery for several months, is now located at the C. C. Thompson pottery. For his age he is considered one of the best in that branch of the business.

James Kinney, a popular employee at the Dresden, is spending a few days at Atlantic City. He left for that resort yesterday in company with James Luster, a turner at the Laughlin No. 2. Mrs. Luster was also in the party.

Waity Smith, a pottery worker at the Dresden, is spending a few days at Atlantic City. He left for that resort yesterday in company with James Luster, a turner at the Laughlin No. 2. Mrs. Luster was also in the party.

Packers' local No. 25, and dippers' local No. 18, will meet in their regular sessions this evening. Business of importance is to be transacted at these sessions.

A Quorum Not Secured—Paving Ordinance Prepared, Work to Cost \$10,000.

Council failed to obtain a quorum last night. The only members showing up on time were Riley, Huff, Solicitor Marshall and Clerk J. S. D. Mercer. Councilmen Wetzel and Wells appeared too late to establish a quorum, but the latter gentleman stated that a quorum would be present on time at the regular meeting next Thursday night.

The important matters awaiting consideration is an ordinance ordered prepared by the solicitor for the paving of one square on First street, four squares on Carolina avenue and to consider the advisability of adding another square to the ordinance; two squares on Virginia avenue and one square on Second street.

IMPORTANT TEST CASE

I That of Good and Spurlock, Indicted for Selling Intoxicants.

E. S. Good and Robert Spurlock, who are to be tried in the common pleas court at New Cumberland next Wednesday for sale of an alleged intoxicating drink called "Rikk," had their preliminary hearing yesterday and were bound over to court in the sum of \$200 each, with John Shrader as bondsman for both.

Attorneys Donehoo, Hart and Marshall, of New Cumberland, will be the attorneys for the defense, while Prosecuting Attorney MacKenzie will be assisted by Attorney Ingram, of Chester. The case promises to be fought out

with more than ordinary vigor, and will attract attention among a large portion of the state, especially where prohibition or local option laws exist, and have a legal bearing on the sale of such so called intoxicants as "rikk," "ambrosia," etc.

Good and Spurlock pleaded not guilty to the indictments.

LA BELLE VIEW is a part of Steubenville lying in the Third and Fifth wards on a beautiful tableland just above the Panhandle passenger depot. It will inherit every up-to-date convenience that belongs to a progressive municipality whose population is now 15,000 and growing at the rate of 42 per cent.

The Steubenville City Councils have appointed a committee to confer with the owners of La Belle View property for the purpose of accepting a magnificent park fronting a great distance along the Boulevard. This park will be improved with gushing springs of pure water, pleasure resorts, fine grounds, lakes, etc.

Arrangements have been made to pave a portion of the Boulevard and the business street. Other extensive city improvements will follow.

There will be city water, natural gas and electric light.

MORE WORKMEN WILL BE
CALLED TO STEUBENVILLE.**

Among the names of the great organizations which are works and adding buildings and improving new men are the La Belle Steel Co., Pope Tinplate Co., Ohio Valley Clay Co., National Steel Co., American Steel Hoop Co., Ohio Foundry Co., Steubenville Pottery Co., Steubenville Wall Paper Co., Riverside Blast Furnace Co., Acme Glass Works Co., Hartje Bros., Paper Manufacturers, Jefferson Glass Co., Means Foundry and Machine Co., Robinson & Irwin Machine Co., National Marble Co., and many planing mills.

The National Steel Company will employ about 2,000 men in the billet and rod mills; the Pope Tinplate Works will start with 800 men, and increase to double this number in the next fourteen months; the La Belle Steel Works employ 2,100 men at present at their new open hearth furnaces and at the new tube mills. When completed this industry alone will give employment to 6,000 men.

It is estimated that the army of workmen in Steubenville and vicinity will be increased to 15,000 and that in less than ten years there will be a compact commercial metropolis of more than 50,000 souls, built up solidly with no vacant land intervening.

Beautiful new residences and modern business houses springing up on every side — some already completed!

Have you noticed the way prices have bounded upwards? The way first purchasers are hanging on to their gold mines — refusing 10, 15 and even as high as 25 per cent profit!

But notwithstanding this enormous advance, the Company has decided to give those who missed the first excursion a second chance to get in on the ground floor, and have not raised the prices for the second sale except on fifty very fine Boulevard lots that were

not staked or opened at last sale. On these fifty lots prices have been raised 10 per cent, but should have been raised 25 per cent, as investors who have bought the adjoining Boulevard lots are asking as high as 33 to 50 per cent advance.

La Belle View in its infancy is proving the greatest money maker in modern real estate. What will the future bring for those who get in now! The most conservative conversant with real estate will tell you that this boom will over-reach all predicted bounds!

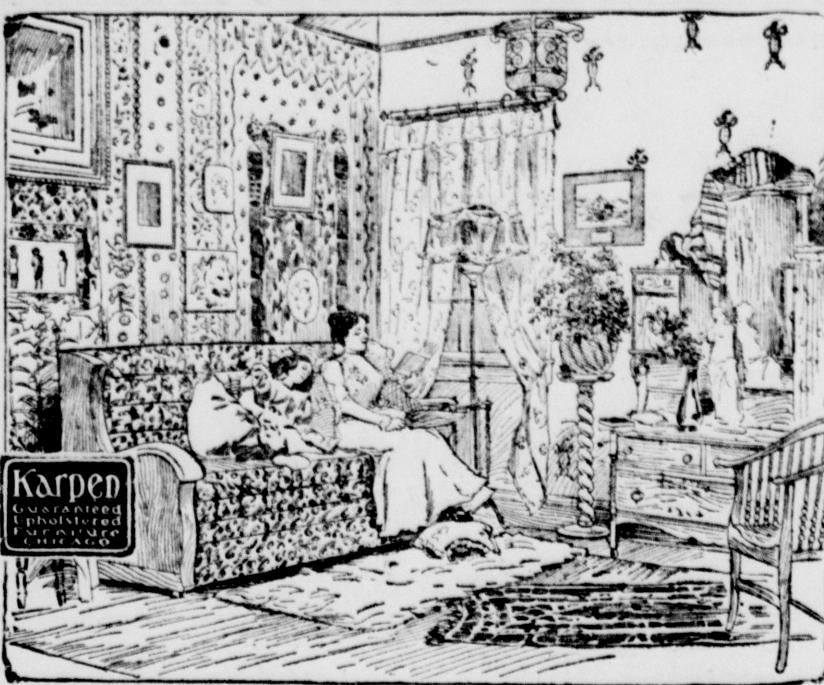

Come look at the towering giant industries the La Belle Steel Company is erecting! These alone will call more workmen to Steubenville than La Belle View plan of lots will hold homes for them to live in.

**CHOICE LOTS will go at
this Second Great Sale
at \$100, \$125, \$150, \$175,
\$200 and up, on terms of \$5
and \$10 down and \$1.00 per
week.**

Ten per cent discount will be allowed for cash when full amount is paid within sixty days from date of purchase, and in the event of sickness or loss of employment no interest will be charged on deferred payments. Should the death of the purchaser occur, his or her heirs will receive free deed or title to lot without requirement of any further payment, if purchaser has paid one-fourth of purchase price.

It might be well to remember that the lots on the boulevard and many of the streets run from 50x100 to 55x125 and 50x150.

IN ARTISTIC STYLE THE VISITORS WON

Parkersburg Players Defeated East Liverpool With Apparent Ease.

BAD ERRORS WERE MADE

On the Part of the Home Team Scored Only One Run—A Good Start Was Made But the Record Could Not Be Kept Up.

Although the members of the Parkersburg baseball team were dusty in appearance they had less trouble in administering a defeat to the local aggregation yesterday afternoon than any visiting team has had up to date. It certainly was done in an easy manner. For the first time this season Manager Walsh's stars witnessed the national game as it should be played.

The visitors came from that part of the country whence experts of the diamond spring. With cheeks of tan and suits to match they filed into the park and were greeted with: "When did you get in? Did the Bennie come up today? How are the folks down about Long Reach?" It was not long until all the questions were answered, but not audibly. That was not necessary. They soon showed the inquisitive bunch that they came at least from a section where the game is understood and that was considered quite enough.

Without doubt they made no effort and won hands down, but notwithstanding, the locals have a plausible excuse to offer. In the first place it was a little the fastest crowd that they have yet competed with. Secondly no team can play ball successfully with a point in the infield weak. Had a good man been stationed at short the result might have been some different. Boyle is there in his old position, out when it comes to playing short he must take a back seat. The balls that floated in his neighborhood may have had a little fire attached to them, but it looked very much as if he should have frozen on to at least one during the entire contest. By allowing two of them to go whizzing past he donated two of the runs and perhaps lost the game, as such rank errors have a tendency to throw a team into a state of despondency and the "don't care" feeling.

Fred Hackathorn also had a hand in allowing the awful drubbing to be recorded. It is seldom that he has an off day and in fact he had played such an excellent game all the season that the fans were about convinced that he had cut them out entirely. Only one error was marked against him, but that was due to nothing but his great luck. Had a few runs been made later he would have been marked up another notch. When he played ping-pong with a foul and finally dropped it, the spectators were reminded vividly of the beautifull

little catches made by Doc Howard.

Until the third inning neither side scored and the prospects looked encouraging for a close game, but just as soon as the visitors piled up two runs, sounds produced by the cracking of knees were heard distinctly and the result was plainly visible. In this inning Emmerling landed on one for two bases and eventually scored the only run that was registered. After his spurt not a man reached third base. In the sixth the West Virginians clinched the deal with two hits and a like number of runs. All interest was then lost and they closed the ninth without raising a sweat. The score:

CANTON TO YOUNGSTOWN

Via Sebring, Salem and Washingtonville the Latest Proposed Street Railway.

Salem, June 27.—The affairs of the Stark Electric company are gradually shaping up and it is encroaching day by day upon Salem and contiguous territory. This company now has a street railway line from Canton almost to Sebring and is headed this way, with Salem as the objective point. The right of way to this city has practically been secured.

The company has a big power house near Sebring. Now it is a fact that street railway companies, which have in control cross country lines, do not build power houses at the terminals, this fact leads many to think that the company intends to touch Salem and then run on to Washingtonville, where it will be built from Columbian to Youngstown. Over that course the present power house would be just half way between Canton and Youngstown.

A THIRD VICTIM

Of the Mingo Wreck Dies in the Hospital at Steubenville.

Steubenville, June 27.—Engineer Edward Wiggins, who was injured in Monday's wreck on the C. & P. railroad at Mingo Junction and who has since been at Gill hospital, died there yesterday, making the third victim of the awful wreck.

Engineer Wiggins' death was due to inflammation of the brain. He sustained a cut across the top of his head in the wreck which extended to the bone. He was thrown against the fire box with awful force.

He was a single man, lived in Chicago, and was formerly an engineer on the Vandalia railroad. He was 30

19TH YEAR. NO. 151.

EAST LIVERPOOL, O., FRIDAY, JUNE 27, 1902.

TWO CENTS.

A WHOLE FAMILY ILL FROM POISON IN COFFEE

A. P. Cunningham And His Wife of Chester Are Confined to Their Beds.

THE CHILDREN ALSO BECOME VIOLENTLY SICK

Boarder Who Did Not Drink the Liquid Remains In His Usual Health.

VICTIMS IN GREAT AGONY AFTER NOON MEAL

The whole family of A. P. Cunningham, who resides near Third street, Chester, were poisoned by coffee yesterday at their noon meal. Those who are suffering from the effects of poison are Mr. and Mrs. Cunningham, their son, Lewis, their daughter, Annie, and the baby.

A boarder named John Herbert, who did not drink any coffee, was not affected in the least. After drinking the coffee, the entire family became deathly sick, and all were taken with spasms of pain and vomiting.

Dr. Lewis, of Chester, was hastily summoned, and pronounced the case one of arsenical poisoning. He labored diligently with each member of the family until 4 o'clock in the afternoon, and at that time, Lewis, Annie and the baby had so far recovered as to be able to go about the house.

The home was visited by a News Review reporter this morning. He found Mr. and Mrs. Cunningham still confined to their beds, Mrs. Cunningham being very weak, while both were suffering a great deal from the opiates that had been administered. The doctor's heroic efforts undoubtedly saved the lives of all members of the family.

EXTRA SESSION OF LEGISLATURE

It May Be Necessary to Repair Blunders Supreme Court Has Found.

LEFT IN A CHAOTIC STATE

Are Several Sections of the State on Account of Acts Now Annuled. Code Bill May Be Necessary—Trouble For Tom Johnson.

From a Staff Correspondent.

Columbus, June 27.—The sweeping decisions of the supreme court Thursday will, it is generally believed, make an extra session of the legislature inevitable. Briefly summarized, the court holds the Royer act to be valid; decides that a vacancy existed in the office of lieutenant governor and declares unconstitutional the Cleveland charter law and the police ripper bill for Toledo. The decisions are the most important and far-reaching ever handed down from the Ohio supreme court bench. The action of the court in upholding the Royer act cuts out its jurisdiction in about 95 per cent of the cases in error and makes the circuit court a court of last resort in these cases.

The question of the court's jurisdiction was raised in two cases from Tuscarawas county in which Hon. John C. Welty, of Canton, contended the court had no authority to act and on this ground he filed motions for the dismissal of both actions. Both motions were allowed by the court, and the victory achieved by Mr. Welty is notable one.

If a special session of the legislature is called for the purpose of correcting the defect in the Royer law as well as enacting other legislation rendered imperative by reason of the unconstitutionality of other acts, Mr. Welty will become known as an important factor in bringing it about.

Some profess to believe that the decision bearing on the Cleveland charter law and Toledo police bill will make necessary the enactment of a municipal code, as the action of the court declared invalid the system of classification of Ohio cities.

In the Cleveland case the court

In speaking of the matter this morning, Mr. Cunningham said they attributed their illness to the coffee, from the fact that the boarder, Herbert, who does not drink coffee, was not overtaken by illness. How the poison got into the coffee is a mystery.

Some of the coffee is now in the hands of Druggist C. T. McCutcheon, of Chester, who will analyze it at his earliest opportunity and report if there was any arsenic in it. Dr. Lewis is positive in his diagnosis that the poisoning resulted from arsenic, but has not given a full statement of the case, being out of town today.

The case of Mrs. Cunningham is now perhaps the worst, as she drank more of the coffee than the others. She was however, able to give a meager account of her suffering this morning. From present conditions it is thought both will probably recover from the effects, but not for some days.

A neighbor lady is kindly assisting them. The family are very well-to-do and much respected. Citizens deeply sympathize with them. The children were about the house as usual this morning, and have about recovered from the effects of the drug.

stayed the judgment of ouster until October 2, with the idea in mind that the governor will call an extra session to deal with the question which this decision places squarely before the people. The decision divests Tom Johnson of much power and deprives him of his cabinet officers. It knocks out his entire board. The Toledo decision restores Mayor Jones, of that city, to power. The act declared unconstitutional provided for the appointment of a police board by the governor and took all police power out of the hands of the mayor. The decision ousts the new board.

WOES OF WEDDED COUPLES

Lisbon, June 27.—(Special)—The divorce case of Eli Flickinger, of Columbiana, versus Alice Flickinger, was tried in common pleas court yesterday. They were married in 1890 and have three children. The couple separated last January and both asked a divorce and the custody of the children. She also entered a claim for alimony. The case was hotly contested, able legal talent appearing on both sides. There were many sensational features. Remarkable ability to prevaricate was shown by the witnesses. Almost every important statement made on one side was flatly contradicted by the other. Fourteen witnesses testified for the plaintiff and 15 for the defendant.

Mr. Flickinger took their little boy, his wife and Bert Miller asleep on a couch in his house at 5:20 a. m. Much testimony was introduced by him to show that Miller was a frequent visitor and several times narrowly escaped meeting Flickinger. Mrs. Flickinger left her husband and came to live with her father in Lisbon about the time that Miller came here to work. He alleges that they were often together here. There was also testimony that both parents abused the children, beating them with whips, sticks, pokers and shovels. The defendant introduced testimony showing that at the time of her separation Flickinger struck her in the face and choked her until she fainted.

Mr. Flickinger took their little boy, Joseph, to Leetonia on several occasions and gave him beer and whisky and made him drunk.

Lyde Race, a woman of bad reputation, lived at the Flickinger home for a year. Husband and wife blamed each other for keeping her. After their separation Mrs. Flickinger with her children, lived with her father, Henry Albert, in Lisbon. Flickinger then accused her of infidelity, claiming their child, Carl, was not his. He drew a revolver and threatened to kill both her and himself, it was stated. Judge Hole decided that neither was entitled to a divorce and that the children should remain in the mother's care. He also refused to grant her alimony. Mrs. Flickinger fainted when she heard the judge's decision, the children wept and there was an unusual scene in court.

Martha M. Sinclair, of St. Clair township, was granted a divorce yesterday from Warren H. Sinclair, and given the custody of their children, Jennie, Fred, Wilbur and Rachel. The grounds were gross neglect, desertion and non-support.

The petition of Elizabeth Medsger, of Leetonia, for divorce from George E. Medsger, has been dismissed. The plaintiff charged unfaithfulness.

The divorce case of E. Nora Wilhelm against Willard J. Wilhelm, of Leetonia, has been dismissed. They were married in 1890. She claims that he was unfaithful to her and named Mrs. Lizzie Betz as co-respondent. About two years ago Mr. Wilhelm was sued by Mrs. Betz for \$5,000 for alienating his wife's affections. The jury were unable to agree and the case was dismissed.

EAST END
PROMISCUOUS SHOOTING

Dangerous to Boatmen on the River and to Other East End Residents.

Promiscuous shooting of firearms in the East End districts will have to be stopped immediately, or some innocent person will be wounded or killed. Never before has there been so much of this kind of shooting in the East End. Last evening several persons who were boating on the Ohio river had narrow escapes from being killed.

William Price, a well known pottery worker, was in a skiff between the island and the Ohio shore. In the skiff were several small children. They were on the water but a short time when shooting was heard and splashes were seen in the water as the skiff was passing along the shore. Some person or persons whose names are not known were shooting a revolver toward the river. One bullet whistled over Mr. Price's skiff, and fearing some injury would happen the children, he pulled to the shore and sent them home. Others who were walking along the bank heard the shots, saw the bullets splashing, and shouted for the shooting to be stopped.

There is not an evening that there are not from two to a dozen skiff parties out on this part of the river, and the pastime of shooting is extremely dangerous. There is an ordinance against the discharge of firearms in the city limits and the penalty is quite severe.

SLAVONIC CHRISTIANING

An Unusual Event Occupied the Attention of Foreigners in the East End.

"And his name shall be John." Such were the words pronounced in native tongue by a Slavonic priest of McKeesport, Pa., at a christening which took place at the home of Mr. and Mrs. George Kohut, on Virginia avenue near the East End fire station yesterday. It was the first time that such an event was ever held in the East End, and it was a signal for all the foreigners employed at the sewer pipe works to take a day to attend the festivities.

The babe that was the center of attraction was born last Saturday, and arrangements for the christening were commenced Saturday evening. No arrests were made.

Lights Are Wanted.
The opinion is growing in the East End that the board of education should place several incandescent lamps about the Horace Mann school building on Erie street, similar to those that were placed about the Central building several months ago. Persons residing in the vicinity of the building claim that the actions of some people who loiter about the building after dark would be stopped if there were a few lights about. The committee in charge of the school will likely be asked to place lights very soon.

Labor Scarce in Georgetown.
Persons from Georgetown who were in the East End today state that very slow progress is being made on the new four room school building now under course of construction there. Practically all the material for the building has been delivered to the site, but the statement is made that a scarcity of labor is the cause of the slow progress.

Wedding on July 4.
Announcement of the approaching marriage of Miss Eliza English, of St. George street, and Mr. J. E. Herbert, of Maple street, was made today. The wedding will take place July 4, and the ceremony will be performed by Rev. N. M. Crowe. The young people are well known in the East End, and they will make their home there.

THIS IS A FACT

There Is No Question About It—It Is a Plain Statement of Facts
Made By an East Liverpool Citizen.

Mrs. Margaret Tracy, of No. 178 Seventh street, East Liverpool Ohio, says: "One of my family was very nervous, subject to nervous spells, weak and miserable, could not sleep, and the digestion was very poor. I asked the invalid to take Dr. A. W. Chase's Nerve Pills I got at Larkins' drug store. The result was splendid, the medicine built her up, enriched the blood, made the nerves strong, gave restful sleep and so strengthened the stomach that digestion is perfect. The old-time languid, played-out feeling has given place to one of strength and energy, and as a result we are more than pleased with the medicine."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medicine Company Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package:

Harvard Took the Four-Oared—Fresh men Race a Tie.

New London, Conn., June 27.—Rowing within 10 seconds of record time, the Yale 'Varsity crew yesterday afternoon lowered the colors of the fastest eight that Harvard has yet produced. Yale won by four boat lengths. Yale's time was 20:20; Harvard's 20:33. In the four-oared race the colors of Harvard were borne to the front. The Cambridge four won by two and one-half lengths.

In the freshman race Yale's crew led over the last mile until within a few feet of the finish, where the Harvard crew, by a magnificent spurt, jumped their shell up even with the blue. The judges were compelled to decide that the race was a draw.

Gov. Nash Signed Extradition Papers For Ex-Official, of Ohio.

LARCENY OF \$39,360 CHARGED

He Was Vice President of Failed Manhattan Insurance Company, of New York—Placed Under Arrest to Prevent Extradition.

New York, June 27.—The district attorney of this county yesterday received a telegram from Columbus, O., saying that Governor Nash had signed extradition papers at the request of Governor Odell for the apprehension of William H. Hahn, former vice president of the insolvent Manhattan Fire Insurance company, who has been indicted here for grand larceny.

Hahn was for many years a prominent figure in Ohio state politics. He was Republican national committeeman from 1892 to 1896, when he was succeeded by Senator Hanna. He was at one time state insurance commissioner of Ohio, and was chairman of the state Republican committee at the time Mr. McKinley was elected governor. He was also president of the Mansfield, O., National bank for many years.

Hahn Accused of Larceny.

Assistant District Attorney Garvin said yesterday that Hahn was vice president of the Manhattan Fire Insurance company, which went into the hands of a receiver on May 7, 1901. The company failed with liabilities of over \$600,000, while the tenable assets were about \$200. Just before the company failed a statement had been filed with the state insurance department showing the unimpaired capital stock to be \$500,000 and a surplus of liabilities over assets of \$40,000.

Hahn was jointly indicted with Daniel C. Myers, former president of the company. The investigation into the affairs of the company by the officials here, it is said, showed that the correspondence and books of the concern had been carried out of the state, and the district attorney, who was acting for the state insurance department, was greatly hampered thereby. Myers, who was president of the company, was arrested in Columbus last August, being charged with the larceny of \$27,000. Hahn is charged with the larceny of \$39,360.

Move to Prevent Extradition.

Mansfield, O., June 27.—As soon as the news was received here yesterday, shortly before noon, that Governor Nash had decided to honor the requisition for William Hahn, charged with grand larceny, his attorneys set about to circumvent extradition. Mr. Hahn was here awaiting the decision.

The governor's decision that the offense charged constituted a crime under the laws of Ohio, as well as of New York, led to the preparation of an affidavit by Prosecuting Attorney W. H. Bowers, of this city, charging the same offense as that for which Mr. Hahn is under indictment in New York. A warrant was issued for Mr. Hahn and he was arrested in the office of his local counsel, Judge Brucker, and taken to the mayor's office, where he pleaded not guilty to the charge of grand larceny. It was decided that the preliminary hearing should be had in mayor's court next Monday morning. The defendant's attorney did not offer bail and the defendant was left in charge of Chief of Police Weil.

Got Ahead of the Sheriff.
Just after this preliminary Sheriff Payne put in an appearance at the mayor's court, having received instructions from the attorney representing the district attorney of New York, to arrest and hold Hahn. When the sheriff found that he was too late and that the defendant was already in the custody of the chief of police, he made no attempt to take him, but notified the governor of the turn of affairs had taken and received advice from that official to do nothing until the arrival of the papers and the representative of the New York officials from Columbus. The death of young Charles Ross in the East End adds another to the long list of victims of carelessly handled revolvers. Such cases are so frequent that they attract little attention in the newspapers or elsewhere. If there is an official investigation it results in a verdict of "nobody to blame," and the case is dismissed from the records and from the public mind. But there is blame to be placed nevertheless. It should fall on those addicted to the revolver-carrying habit. In this day of enlightenment there is little need that anybody, aside from the officers of the law, should carry a weapon. Those who carry one make the excuse that they do so for their own protection.

The revolver is a very poor protector, as innumerable statistics prove. Probably nine times out of ten when it shoots anybody it shoots the owner or some other inoffensive person, and very rarely does it kill or wound one who deserves to be shot. Even those who are experts in its use become careless and wound themselves or others, then make the old excuse that they did not know it was loaded. It should be the first care of every person owning a weapon to know whether it is loaded or not, and to handle it at all times as if it were loaded. But it is not in the hands of those who know how to use it that the revolver does most damage. Ignorant men, drunken men, and even women and children are suffered to carry concealed deadly weapons, although it is against the law everywhere. Half the murders that are committed would never occur but for the fact that people who have no business with firearms have them in their possession.

The sale of revolvers and other weapons should be as carefully guarded as the sale of poisons. No druggist is allowed to sell strichnine unless he knows the use to which it is to be put; no reputable merchant would sell a can of dynamite to a child or a person ignorant of its nature. Yet every person with money enough to do it can walk into a store and purchase pistols and cartridges with as much ease as he can purchase tea or nails. And yet experience proves that the pistols slay hundreds where dynamite and poison slay only in isolated instances. The sale and use of weapons needs to be restricted. They were necessary to the pioneers, when a hostile Indian might lurk behind every stump, and they may still be necessary where bandits and brigands roam the country. But the average citizen of Ohio has no need for them, and they should be kept out of the hands of all save those who need them, and who are licensed to carry them.

Now an extra session of the legislature is talked of to unmake some of the laws made by the general assembly last winter. Recent decisions of the supreme court are a sad commentary on the folly of rushing bills through the legislature without analyzing their provisions and studying their probable effect. Not only is the supreme court stripped of a great portion of its authority, but the city of Cleveland is likely to be deprived of a government; county salary laws, instead of being simplified, have been made chaotic, and other measures that were thought to have been fully debated and duly considered are found to be unconstitutional. With a state attorney general always on hand to advise the legislature and with a great portion of its membership made up of lawyers, such a showing is inexcusable. When will men, who are

instructed with duty of legislating for a great state, learn that haste makes waste, and that laws, in order to stand the tests of the courts, must state what they mean in terms not to be misconstrued?

Ohio has a new Lieutenant governor. His duties, just at present, are not likely to prove burdensome.

King Edward and his people are both to be congratulated.

POTTERY NEWS

It is probable, says a Trenton paper, that within a short time the Trenton saggersmakers will withdraw from the Kilnmen, Dippers and Saggersmakers' local and form an independent local of their own. A special meeting of the pottery trade was held last night at the headquarters of the National Brotherhood of Operative Potters, in the Ribman building, when the question received a lengthy discussion. At present, with three trades affiliated together in one local, the saggersmakers claim that their interests cannot receive proper attention, because they are in the minority. They hold that most of the meetings are taken up in the discussion of matters pertaining to the kilnmen. There are enough organized saggersmakers to form a local of their own, and they claim that if they were provided with a separate organization they would be better able to pursue their efforts to obtain new members. The preposition for a separate union is looked upon with favor by the Brotherhood officials, and it is likely that in the near future the saggersmakers will secure a decree of separation for which they have petitioned.

The prediction is made that the manufacturing potters of this city will be offered an exceptionally large fall trade. It is a known fact that trade with the local manufacturers during the past six months was not up to expectations, and the same can possibly be said with a degree of conservativeness of the pottery industry all over the country. But the population of the country is increasing, and the use of ware will be continued just the same. Inasmuch as the jobbers and retailers have not been buying heavy, at some time in the near future their stock will become quite low. No need to mention the result when such conditions prevail with the buyer. His stock is replenished, orders commence to come in and business is once more at its desired standard. Such are the conditions which confront the manufacturers for the closing six months of the year. The future is most bright for the manufacturers of this city, and more than one manufacturer has said so within the past fortnight.

It was stated yesterday by a member of the Vodrey Pottery company that the company was already commencing to close down its plant for a short time, but this work would require about a week's time. By this it will be seen that the shop will close down about next Thursday evening. How long this and other shops in the city will be closed cannot be told at this time. It is learned that a number of improvements will be made in several of the shops, and when operations are again resumed each plant will be in the best possible shape.

General Manager Thomas Price, of the Union Potteries company, located at Toronto, was in the city yesterday and spent several hours at the Union. He stated that the Chelsea at New Cumberland was in full operation, but that the plant would close some time next week for the July vacation. An excellent business is being done both at the Chelsea and at the Union. At the latter plant not a piece of ware is being made for stock.

The youthful reporter for a local paper who is said to have never seen inside a pottery until he came to this city a few weeks ago, gave the startling news a few days ago that a packer at the East Liverpool plant had so badly cut his arm that he would not be able to work for several weeks. The truth was that the packer had scratched his finger on a nail, something that is most common in a packing department.

Samuel Myler, who has been working on the glaze end at the D. E. McNicol plant for some time, is now located on the glaze end at Laughlin No. 2, under James Elliott. The vacancy at the McNicol plant will not be filled for a while, as there are eight men now in this crew.

George Smith, secretary of local union No. 9, is now bench boss at the East Liverpool during the absence of Peter Nofleer, of Chester, who is spending a few months across the water. When work is slack at the East Liverpool Smith is employed on the glaze end at Brunt's.

J. A. Stillwell, a presser at Cartwright's pottery, is laid up with a fungous growth on his neck, and will go to Pittsburgh shortly to have an operation performed.

The several plants operated by the Laughlin China company will close down tomorrow evening for a period of two weeks. The company is pushing matters to the utmost, and when the big plants again resume work will be rushed in all departments at the several plants.

Kilnmen's local No. 9 will hold an important session in Brotherhood hall this evening. It is expected that a

report of the auditing committee will be presented at this session, so that the officers elected a few weeks ago will be able to take their seats next week.

James McDermott, who has been employed as cask boy at the McNicol pottery for several months, is now located at the C. C. Thompson pottery. For his age he is considered one of the best in that branch of the business.

James Kinney, a popular employee at the Dresden, is spending a few days at Atlantic City. He left for that resort yesterday in company with James Luster, a turner at the Laughlin No. 2. Mrs. Luster was also in the party.

Wally Smith, a pottery worker of this city, has accepted a conductorship on the consolidated lines of the Monongahela division of the Pittsburgh railways, and left yesterday to go on duty.

Packers' local No. 25, and dippers' local No. 18, will meet in their regular sessions this evening. Business of importance is to be transacted at these sessions.

Part of the kiln crew at the Taylor, Smith & Taylor pottery are off duty now. The rest of the crew will go off duty Saturday until after the Fourth.

The regular meeting of mould makers' local No. 22 was held Wednesday evening, but routine business occupied the entire session.

William Jackson is a new saucer jiggerman at the Union. He commenced work a few days ago.

Frank Rappold, a prominent pottery worker, left for a two weeks' outing at Atlantic City.

Miss Camelia McDonald has taken a position at the Union as a finisher.

NO COUNCIL MEETING

A Quorum Not Secured—Paving Ordinance Prepared, Work to Cost \$10,000.

Council failed to obtain a quorum last night. The only members showing up on time were Riley, Huff, Solicitor Marshall and Clerk J. S. D. Mercer. Councilmen Wetzel and Wells appeared too late to establish a quorum, but the latter gentleman stated that a quorum would be present on time at the regular meeting next Thursday night.

The important matters awaiting consideration is an ordinance ordered prepared by the solicitor for the paving of one square on First street, four squares on Carolina avenue and to consider the advisability of adding another square to the ordinance; two squares on Virginia avenue and one square on Second street.

It is estimated that the cost to the

town on these improvements will amount to \$10,000, while the property owners will be assessed for the balance. The ordinance includes the provision for holding a special election to vote on the issue of bonds for completing the paving, grading, etc.

The other matter to be considered is the grading on a part of Third street.

IMPORTANT TEST CASE

That of Good and Spurlock, Indicted for Selling Intoxicants.

E. S. Good and Robert Spurlock, who are to be tried in the common pleas court at New Cumberland next Wednesday for sale of an alleged intoxicating drink called "Rikk," had their preliminary hearing yesterday and were bound over to court in the sum of \$200 each, with John Shrader as bondsman for both.

Attorneys Donehoo, Hart and Marshall, of New Cumberland, will be the attorneys for the defense, while Prosecuting Attorney MacKenzie will be assisted by Attorney Ingram, of Chester. The case promises to be fought out

with more than ordinary vigor, and will attract attention among a large portion of the state, especially where prohibition or local option laws exist, and have a legal bearing on the sale of such so called intoxicants as "Rikk," "ambrosia," etc.

Good and Spurlock pleaded not guilty to the indictments.

THE UNION SCALE

Is Wanted by Chester Mill Men by the 15th of Next Month.

It is reluctantly stated that the Chester mill officials have been given until the 15th of July to make a decision on paying the union scale. The employees, it is understood, will not insist on the full recognition of the union, but will be satisfied with an open shop paying the union scale.

Chinese Missionary Lectures.
Miss Mabel Sia, the Chinese missionary, aged 2, delivered an interesting lecture in the M. E. church Thursday evening to a large audience. She was attired in native costume. She has been in this country about four years, at a western seminary. Miss Sia was born of Christian parents, speaks English fluently, and gives an interesting account of the customs of her native land.

Big Shipments of Wool.

About 25 or 30 farmers came into Chester this morning making their wool deliveries to Lee & Miller at Chester depot. Three cars will be shipped from that point, four cars from Shippingport and one car at Industry, nearly all purchased in the vicinity of Hookstown.

Taken to Jail.

Officer Elliott took Martin, the colored man arrested for stoning street cars, to New Cumberland yesterday, and thence the prisoner will be taken to the Wheeling jail to serve out his time of commitment. Fleming, the other man arrested, settled his fine through Pittsburg friends and was released.

CHESTER NOTES.

A number of street cars are now being repaired at the power house.

Miss Lizzie Plankinton, of Carolina avenue, who has been quite ill, is recovering.

Robert Reed, is the Hookstown farmer who owned the cattle recently bitten by a mad dog, and other farmers in that vicinity fear that a number of their animals have been bitten.

for the pasteboards that will carry thousands to fortune on next Saturday.

We especially urge those who missed the first excursion to the great introductory sale on May 24th to get in NOW. Those who have already investigated La Belle View property will need no persuasion to influence them to come out again — they'll be the most eager buyers on the property!

Think of what your eyes will see at La Belle View now! Over 550 lots already sold and over 300 of them being improved as rapidly as their enthusiastic owners can push forward operations.

Beautiful new residences and modern business houses springing up on every side — some already completed!

Have you noticed the way prices have bounded upwards? The way first purchasers are hanging on to their goldmines — refusing 10, 15 and even as high as 25 per cent profit!

But notwithstanding this enormous advance, the Company has decided to give those who missed the first excursion a second chance to get in on the ground floor, and have not raised the prices for the second sale except on fifty very fine Boulevard lots that were

not staked or opened at last sale. On these fifty lots prices have been raised 10 per cent, but should have been raised 25 per cent, as investors who have bought the adjoining Boulevard lots are asking as high as 33 to 50 per cent advance.

La Belle View in its infancy is proving the greatest money-maker in modern real estate. What will the future bring for those who get in now! The most conservative conversant with real estate will tell you that this boom will over-reach all predicted bounds!

Come look at the towering giant industries the La Belle Steel Company is erecting! These alone will call more workmen to Steubenville than La Belle View plan of lots will hold homes for them to live in.

EVERY MODERN CITY
IMPROVEMENT.**

LA BELLE VIEW is a part of Steubenville lying in the Third and Fifth wards on a beautiful tableland just above the Panhandle passenger depot. It will inherit every up-to-date convenience that belongs to a progressive municipality whose population is now 15,000 and growing at the rate of 42 per cent.

The Steubenville City Councils have appointed a committee to confer with the owners of La Belle View property for the purpose of accepting a magnificent park fronting a great distance along the Boulevard. This park will be improved with gushing springs of pure water, pleasure resorts, fine grounds, lakes, etc.

Arrangements have been made to pave a portion of the Boulevard and the business street. Other extensive city improvements will follow.

Among the names of the great organizations which are works and adding buildings and improving new mills are the La Belle Steel Co., Pope Tinplate Co., Ohio Valley Clay Co., National Steel Co., American Steel Hoop Co., Ohio Foundry Co., Steubenville Pottery Co., Steubenville Wall Paper Co., Riverside Blast Furnace Co., Acme Glass Works Co., Hartje Bros., Paper Manufacturers, Jefferson Glass Co., Means Foundry and Machine Co., Robinson & Irwin Machine Co., National Marble Co., and many planing mills.

The National Steel Company will employ about 2,000 men in the billet and rod mills; the Pope Tinplate Works will start with 800 men, and increase to double this number in the next fourteen months; the La Belle Steel Works employ 2,100 men at present at their new open hearth furnaces and at the new tube mills. When completed this industry alone will give employment to 6,000 men.

IN ARTISTIC STYLE THE VISITORS WON

Parkersburg Players Defeated East Liverpool With Apparent Ease.

BAD ERRORS WERE MADE

On the Part of the Home Team . . .

Scored Only One Run—A Good Start Was Made But the Record Could Not Be Kept Up.

Although the members of the Parkersburg baseball team were dusty in appearance they had less trouble in administering a defeat to the local aggregation yesterday afternoon than any visiting team has had up to date. It certainly was done in an easy manner. For the first time this season Manager Walsh's stars witnessed the national game as it should be played.

The visitors came from that part of the country whence experts of the diamond spring. With cheeks of tan and suits to match they filed into the park and were greeted with: "When did you get in? Did the Bennie come up today? How are the folks down about Long Reach?" It was not long until all the questions were answered, but not audibly. That was not necessary. They soon showed the inquisitive bunch that they came at least from a section where the game is understood and that was considered quite enough.

Without doubt they made no effort and won hands down, but, notwithstanding, the locals have a plausible excuse to offer. In the first place, it was a little the fastest crowd that they have yet competed with. Secondly no team can play ball successfully with a point in the infield weak. Had a good man been stationed at short the result might have been some different. Boyle is there in his old position, but when it comes to playing short he must take a back seat. The balls that floated in his neighborhood may have had a little fire attached to them, but it looked very much as if he should have frozen on to at least one during the entire contest. By allowing two of them to go whizzing past he donated two of the runs and perhaps lost the game, as such rank errors have a tendency to throw a team into a state of despondency and the "don't care" feeling.

Fred Hackathorn also had a hand in allowing the awful drubbing to be recorded. It is seldom that he has an off day and in fact he had played such an excellent game all the season that the fans were about convinced that he had cut them out entirely. Only one error was marked against him, but that was due to nothing but his great luck. Had a few runs been made later he would have been marked up another notch. When he played ping-pong with a foul and finally dropped it, the spectators were reminded vividly of the beautiful

little catches made by Doc Howard.

Until the third inning neither side scored and the prospects looked encouraging for a close game, but just as soon as the visitors piled up two runs, sounds produced by the cracking of knees were heard distinctly and the result was plainly visible. In this inning Emmerling landed on one for two bases and eventually scored the only run that was registered. After his spurt not a man reached third base. In the sixth the West Virginians clinched the deal with two hits and a like number of runs. All interest was then lost and they closed the ninth without raising a sweat. The score:

CANTON TO YOUNGSTOWN

Via Sebring, Salem and Washingtonville the Latest Proposed Street Railway.

Salem, June 27.—The affairs of the Stark Electric company are gradually shaping up and it is encroaching day by day upon Salem and contiguous territory. This company now has a street railway line from Canton almost to Sebring and is headed this way, with Salem as the objective point. The right of way to this city has practically been secured.

The company has a big power house near Sebring. Now it is a fact that street railway companies, which have in control cross country lines, do not build power houses at the terminals, and it leads many to think that the company intends to touch Salem and then run on to Washingtonville, where it will be built from Columbian to Youngstown. Over that course the present power house would be just half way between Canton and Youngstown.

A THIRD VICTIM

Of the Mingo Wreck Dies in the Hospital at Steubenville.

Steubenville, June 27.—Engineer Edward Wiggins, who was injured in Monday's wreck on the C. & P. railroad at Mingo Junction, and who has since been at Gill hospital, died there yesterday, making the third victim of the awful wreck.

Engineer Wiggins' death was due to inflammation of the brain. He sustained a cut across the top of his head in the wreck which extended to the bone. He was thrown against the fire box with awful force.

He was a single man, lived in Chicago, and was formerly an engineer on the Vandalia railroad. He was 30

years old. Conductor Hanniford is still improving and will be out in a few days.

VICTORY FOR IMPERIALS

In a Ball Game With the Carroll Club Team at Rock Springs Park.

The Carroll club and the Imperial baseball teams played at Rock Springs park yesterday afternoon. The Imperials won by a score of 9 to 0. The batteries were Mays and Maley, pitchers, and Daley, catcher for Carrolls; Hill pitcher, and Hanlon, catcher for the Imperials. The Carrolls could not hit Hill, and made but one hit during the game. The Imperials made 9 runs, 11 hits and 3 errors; the Carrolls 0 runs, 1 hit and 5 errors.

Zanesville Mayor Fined.

Zanesville, June 27.—Mayor Holden was able to appear before Police Judge Reed, yesterday, to answer charges of contempt. He pleaded guilty, made a comprehensive public apology and promised to refrain from interference in police court affairs hereafter. He was then fined \$100 and ordered to pay the costs.

Assaulted and Skull Crushed.

Alliance, June 27.—C. C. Boggs, employed in the machine department at the Morgan works, was assaulted as he was on the street Wednesday night, his skull crushed and is likely to die. Three men attacked him and he says he knows them.

Venetian Incident Probably Closed.

Washington, June 27.—It is hoped in naval circles that the Venetian incident, as revived by the publication of the record of the Chicago court of inquiry, has dropped out of sight as a matter for international exchange. Signor Mayor Desplanches, the Italian ambassador, made his usual weekly call upon Dr. Hill yesterday, at the state department, on a business errand, and the Venetian affairs were not even alluded to. Hence the belief that it is a past issue.

A scientist writing in Johnson's Cyclopaedia on the Grape Cures of Europe says: "Admirable results are attained especially when the 'Grape Cure' has followed suitable treatment of the bowels, but the usefulness of the grape diet is beyond question the main factor in the cures."

A WHOLE FAMILY ILL FROM POISON IN COFFEE

A. P. Cunningham And His Wife of Chester Are Confined to Their Beds.

THE CHILDREN ALSO BECOME VIOLENTLY SICK

Boarder Who Did Not Drink the Liquid Remains In His Usual Health.

VICTIMS IN GREAT AGONY AFTER NOON MEAL

The whole family of A. P. Cunningham, who resides near Third street, Chester, were poisoned by coffee yesterday at their noon meal. Those who are suffering from the effects of poison are Mr. and Mrs. Cunningham, their son, Lewis, their daughter, Annie, and the baby.

A boarder named John Herbert, who did not drink any coffee, was not affected in the least. After drinking the coffee, the entire family became deathly sick, and all were taken with spasms of pain and vomiting.

Dr. Lewis, of Chester, was hastily summoned, and pronounced the case one of arsenical poisoning. He labored diligently with each member of the family until 4 o'clock in the afternoon, and at that time, Lewis, Annie and the baby had so far recovered as to be able to go about the house.

The home was visited by a News Review reporter this morning. He found Mr. and Mrs. Cunningham still confined to their beds, Mrs. Cunningham being very weak, while both were suffering a great deal from the opiates that had been administered. The doctor's heroic efforts undoubtedly saved the lives of all members of the family.

EXTRA SESSION OF LEGISLATURE

It May Be Necessary to Repair Blunders Supreme Court Has Found.

LEFT IN A CHAOTIC STATE

Are Several Sections of the State on Account of Acts Now Annuled. Code Bill May Be Necessary—Trouble For Tom Johnson.

From a Staff Correspondent.

Columbus, June 27.—The sweeping decisions of the supreme court Thursday will, it is generally believed, make an extra session of the legislature inevitable. Briefly summarized, the court holds the Royer act to be valid; decides that a vacancy existed in the office of lieutenant governor and declares unconstitutional the Cleveland charter law and the police ripper bill for Toledo. The decisions are the most important and far-reaching ever handed down from the Ohio supreme court bench. The action of the court in upholding the Royer act cuts out its jurisdiction in about 95 per cent of the cases in error and makes the circuit court a court of last resort in these cases.

The question of the court's jurisdiction was raised in two cases from Tuscarawas county in which Hon. John C. Welty, of Canton, contended the court had no authority to act and on this ground he filed motions for the dismissal of both actions. Both motions were allowed by the court, and the victory achieved by Mr. Welty is an notable one.

If a special session of the legislature is called for the purpose of correcting the defect in the Royer law as well as enacting other legislation rendered imperative by reason of the unconstitutionality of other acts, Mr. Welty will become known as an important factor in bringing it about.

Some profess to believe that the decision bearing on the Cleveland charter law and Toledo police bill will make necessary the enactment of a municipal code, as the action of the court declares invalid the system of classification of Ohio cities.

In the Cleveland case the court

In speaking of the matter this morning, Mr. Cunningham said they attributed their illness to the coffee, from the fact that the boarder, Herbert, who does not drink coffee, was not overtaken by illness. How the poison got into the coffee is a mystery.

Some of the coffee is now in the hands of Druggist C. T. McCutcheon, of Chester, who will analyze it at his earliest opportunity and report if there was any arsenic in it. Dr. Lewis is positive in his diagnosis that the poisoning resulted from arsenic, but has not given a full statement of the case, being out of town today.

The case of Mrs. Cunningham is now perhaps the worst, as she drank more of the coffee than the others. She was however, able to give a meager account of her suffering this morning. From present conditions it is thought both will probably recover from the effects, but not for some days.

A neighbor lady is kindly assisting them. The family are very well-to-do and much respected. Citizens deeply sympathize with them. The children were about the house as usual this morning, and have about recovered from the effects of the drug.

stayed the judgment of ouster until October 2, with the idea in mind that the governor will call an extra session to deal with the question which this decision places squarely before the people. The decision divests Tom Johnson of much power and deprives him of his cabinet officers. It knocks out his entire board. The Toledo decision restores Mayor Jones, of that city, to power. The act declared unconstitutional provided for the appointment of a police board by the governor and took all police power out of the hands of the mayor. The decision ousts the new board.

YOUNG MAN SHOT IN THE MOUTH

PHILIP MULLIGAN GIVES HIMSELF A PAINFUL WOUND.

Was Showing How a Weapon Worked
When It Was Discharged.

Playing with a gun which he did not know was loaded almost resulted in a terrible accident to Philip Mulligan early last evening. He was standing on the corner of Sixth and Market streets, near Steinfeld & Viney's, holding a conversation with a few friends and showing them a small repeating target gun, probably 18 inches in length, when he foolishly placed the mouth of the weapon under his chin and pulled the trigger.

A report was instantaneously sounded and the young man commenced reeling, and was on the point of falling in a faint when friends jumped to his assistance. The usual large crowd in the Diamond soon had him surrounded and it was with difficulty that a way was made to remove him across the street to Larkins' drug store. There it was found that he was hurt rather seriously, and he was carried to Dr. Taylor's office.

Examination proved that the bullet, which was a 22 calibre, had lodged in the right cheek bone, and had fractured the bone and jaw to some extent. There was no difficulty in extracting the ball and Dr. Taylor states that the wound produced will be of little consequence, probably.

His Majesty's Appetite Is Improving and His Wound Gives Him Less Trouble—All the News From Buckingham Palace Is Encouraging.

London, June 27.—(Special)—A bulletin issued at 2 p. m., says: "His Majesty passed a comfortable morning. All his symptoms today are so far satisfactory. His temperature remains normal. Other important fluctuations in His Majesty's temperature will be recorded in the bulletins issued."

It is said that after the issue of morning bulletin Lord Marcus Beresford asked Lord Lister, one of the physicians, how the king was progressing and that Lord Lister replied: "His Majesty is practically out of danger."

The bulletin issued from Buckingham palace at 10:15 this morning says: "His Majesty had a fair night, and has had some settled sleep. His appetite is improving and his wound is much more comfortable. On the whole the king's condition is attended with less anxiety." This is signed by his physicians.

WOES OF WEDDED COUPLES

Lisbon, June 27.—(Special)—The divorce case of Eli Flickinger, of Columbiana, versus Alice Flickinger, was tried in common pleas court yesterday. They were married in 1890 and have three children. The couple separated last January and both asked a divorce and the custody of the children. She also entered a claim for alimony. The case was hotly contested, able legal talent appearing on both sides. There were many sensational features. Remarkable ability to prevaricate was shown by the witnesses. Almost every important statement made on one side was flatly contradicted by the other. Fourteen witnesses testified for the plaintiff and 15 for the defendant.

Mr. Flickinger took their little boy, his wife and Bert Miller asleep on a couch in his house at 5:20 a. m. Much testimony was introduced by him to show that Miller was a frequent visitor and several times narrowly escaped meeting Flickinger. Mrs. Flickinger left her husband and came to live with her father in Lisbon about the time that Miller came here to work. He alleges that they were often together here. There was also testimony that both parents abused the children, beating them with whips, sticks, pokers and shovels. The defendant introduced testimony showing that at the time of her separation Flickinger struck her in the face and choked her until she fainted.

Mr. Flickinger took their little boy, Joseph, to Leetonia on several occasions and gave him beer and whisky and made him drunk.

Lyde Race, a woman of bad reputation, lived at the Flickinger home for a year. Husband and wife blamed each other for keeping her. After their separation Mrs. Flickinger with her children, lived with her father, Henry Albert, in Lisbon. Flickinger then accused her of infidelity, claiming their child, Carl, was not his. He drew a revolver and threatened to kill both her and himself, it was stated. Judge Holt decided that neither was entitled to a divorce and that the children should remain in the mother's care. He also refused to grant her alimony. Mrs. Flickinger fainted when she heard the judge's decision, the children wept and there was an unusual scene in court.

The petition of Elizabeth Medsger, of St. Clair township, was granted a divorce yesterday from Warren H. Sinclair, and given the custody of their children, Jennie, Fred, Wilbur and Rachel. The grounds were gross neglect, desertion and non-support.

The petition of Elizabeth Medsger, of Leetonia, for divorce from George E. Medsger, has been dismissed. The plaintiff charged unfaithfulness.

EAST END
PROMISCUOUS SHOOTING

Dangerous to Boatmen on the River
and to Other East End Residents.

Promiscuous shooting of firearms in the East End districts will have to be stopped immediately, or some innocent person will be wounded or killed. Never before has there been so much of this kind of shooting in the East End. Last evening several persons who were boating on the Ohio river had narrow escapes from being killed.

William Price, a well known pottery worker, was in a skiff between the island and the Ohio shore. In the skiff were several small children. They were on the water but a short time when shooting was heard and splashes were seen in the water as the skiff was passing along the shore. Some person or persons whose names are not known were shooting a revolver toward the river. One bullet whistled over Mr. Price's skiff, and fearing some injury would happen the children, he pulled to the shore and sent them home. Others who were walking along the bank heard the shots, saw the bullets splashing, and shouted for the shooting to be stopped.

There is not an evening that there are not from two to a dozen skiff parties out on this part of the river, and the pastime of shooting is extremely dangerous. There is an ordinance against the discharge of firearms in the city limits and the penalty is quite severe.

SLAVONIC CHRISTIANING

An Unusual Event Occupied the Attention of Foreigners in the East End.

"And his name shall be John." Such were the words pronounced in native tongue by a Slavonic priest of MeKeesport, Pa., at a christening which took place at the home of Mr. and Mrs. George Kohut, on Virginia avenue near the East End fire station yesterday. It was the first time that such an event was ever held in the East End, and it was a signal for all the foreigners employed at the sewer pipe works to take a day to attend the festivities.

The babe that was the center of attraction was born last Saturday, and arrangements for the christening were commenced Saturday evening. No arrests were made.

Lights Are Wanted.

The opinion is growing in the East End that the board of education should place several incandescent lamps about the Horace Mann school building on Erie street, similar to those that were placed about the Central building several months ago. Persons residing in the vicinity of the building claim that the actions of some people who loiter about the building after dark would be stopped if there were a few lights about. The committee in charge of the school will likely be asked to place lights very soon.

Labor Scarce in Georgetown.

Persons from Georgetown who were in the East End today state that very slow progress is being made on the new four room school building now under course of construction there. Practically all the material for the building has been delivered to the site, but the statement is made that a scarcity of labor is the cause of the slow progress.

Wedding on July 4.

Announcement of the approaching marriage of Miss Eliza English, of St. George street, and Mr. J. E. Herbert, of Maple street, was made today. The wedding will take place July 4, and the ceremony will be performed by Rev. N. M. Crowe. The young people are well known in the East End, and they will make their home there.

Larkins & Ferguson have a bunch of asparagus on exhibition which is the largest ever seen in this part of the city. The several sticks are about 20 inches in length.

THIS IS A FACT

There Is No Question About It—It Is a Plain Statement of Facts Made By an East Liverpool Citizen.

Mrs. Margaret Tracy, of No. 178 Seventh street, East Liverpool Ohio, says: "One of my family was very nervous, subject to nervous spells, weak and miserable, could not sleep, and the digestion was very poor. I asked the invalid to take Dr. A. W. Chase's Nerve Pills I got at Larkins' drug store. The result was splendid, the medicine built her up, enriched the blood, made the nerves strong, gave restful sleep and so strengthened the stomach that digestion is perfect. The old-time languid, played-out feeling has given place to one of strength and energy, and as a result we are more than pleased with the medicine."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medicine Company Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

YALE WON 'VARSITY RACE.'

Harvard Took the Four-Oared—Fresh men Race a Tie.

New London, Conn., June 27.—Rowing within 10 seconds of record time, the Yale 'Varsity crew yesterday afternoon lowered the colors of the fastest eight that Harvard has yet produced. Yale won by four boat lengths. Yale's time was 20:20; Harvard's 20:33. In the four-oared race the colors of Harvard were borne to the front. The Cambridge four won by two and one-half lengths.

In the freshman race Yale's crew led over the last mile until within a few feet of the finish, where the Harvard crew, by magnificent spurt jumped their shell up even with the blue. The judges were compelled to decide that the race was a draw.

WILL GIVE UP HAHN.

Gov. Nash Signed Extradition Papers For Ex-Official, of Ohio.

LARCENY OF \$39,360 CHARGED

He Was Vice President of Failed Manhattan Insurance Company, of New York—Placed Under Arrest to Prevent Extradition.

New York, June 27.—The district attorney of this county yesterday received a telegram from Columbus, O., saying that Governor Nash had signed extradition papers at the request of Governor Odell for the apprehension of William H. Hahn, former vice president of the insolvent Manhattan Fire Insurance company, who has been indicted here for grand larceny.

Hahn was for many years a prominent figure in Ohio state politics. He was Republican national committeeman from 1892 to 1896, when he was succeeded by Senator Hanna. He was at one time state insurance commissioner of Ohio, and was chairman of the state Republican committee at the time Mr. McKinley was elected governor. He was also president of the Mansfield, O., National bank for many years.

Hahn Accused of Larceny.

Assistant District Attorney Garvin said yesterday that Hahn was vice president of the Manhattan Fire Insurance company, which went into the hands of a receiver on May 7, 1901. The company failed with liabilities of over \$600,000, while the tenable assets were about \$200. Just before the company failed a statement had been filed with the state insurance department showing the unimpaired capital stock to be \$500,000 and a surplus of liabilities over assets of \$40,000.

Hahn was jointly indicted with Daniel C. Myers, former president of the company. The investigation into the affairs of the company by the officials here, it is said, showed that the correspondence and books of the concern had been carried out of the state, and the district attorney, who was acting for the state insurance department, was greatly hampered thereby. Myers, who was president of the company, was arrested in Columbus last August, being charged with the larceny of \$27,000. Hahn is charged with the larceny of \$39,360.

Move to Prevent Extradition.

Mansfield, O., June 27.—As soon as the news was received here yesterday, shortly before noon, that Governor Nash had decided to honor the requisition for William Hahn, charged with grand larceny, his attorneys set about to circumvent extradition. Mr. Hahn was here awaiting the decision.

The governor's decision that the offense charged constituted a crime under the laws of Ohio, as well as of New York, led to the preparation of an affidavit by Prosecuting Attorney W. H. Bowers, of this city, charging the same offense as that for which Mr. Hahn is under indictment in New York. A warrant was issued for Mr. Hahn and he was arrested in the office of his local counsel, Judge Brucker, and taken to the mayor's court next Monday morning. The defendant's attorney did not offer bail and the defendant was left in charge of Chief of Police Weil.

Got Ahead of the Sheriff.

Just after this preliminary Sheriff Payne put in an appearance at the mayor's court, having received instructions from the attorneys representing the district attorney of New York, to arrest and hold Hahn. When the sheriff found that he was too late and that the defendant was already in the custody of the chief of police he made no attempt to take him, but notified the governor of the turn of affairs had taken and received advice from that official to do nothing until the arrival of the papers and the representative of the New York officials from Columbus. SAYS FOR
LIFE PLANT.

Canton, O., May 22, 1902.
The Life Plant Co., Canton, Ohio.

Gentlemen:—Three years ago I was very sick; had no ambition whatever and was run down until I was miserable. I heard of Life Plant and decided to try it. Took two bottles of the medicine and it cured me. I had so much faith in it then that I advised many of my friends to try it. They did so with excellent results in every case. I could name many who have been cured of different troubles by Life Plant. One in particular was cured entirely of catarrh and many others were cured of different diseases. I consider it the best medicine for all blood diseases, General Debility, Asthma, Stomach Trouble, etc., that is made, and advise all who are suffering from such troubles to take Life Plant. I am never without Life Plant and take it at intervals as a tonic. Life Plant is the best medicine I have ever taken.

Yours respectfully,
JULIA McCORMICK.

The death of young Charles Ross in the East End adds another to the long list of victims of carelessly handled revolvers. Such cases are so frequent that they attract little attention in the newspapers or elsewhere. If there is an official investigation it results in a verdict of "nobody to blame," and the case is dismissed from the records and from the public mind. But there is blame to be placed nevertheless. It should fall on those addicted to the revolver-carrying habit. In this day of enlightenment there is little need that anybody, aside from the officers of the law, should carry a weapon. Those who carry one make the excuse that they do so for their own protection.

The revolver is a very poor protector, as innumerable statistics prove. Probably nine times out of ten when it shoots anybody it shoots the owner or some other inoffensive person, and very rarely does it kill or wound one who deserves to be shot. Even those who are experts in its use become careless and wound themselves or others, then make the old excuse that they did not know it was loaded. It should be the first care of every person owning a weapon to know whether it is loaded or not, and to handle it at all times as if it were loaded. But it is not in the hands of those who know how to use it that the revolver does most damage. Ignorant men, drunken men, and even women and children are suffered to carry concealed deadly weapons, although it is against the law everywhere. Half the murders that are committed would never occur but for the fact that people who have no business with firearms have them in their possession.

The sale of revolvers and other weapons should be as carefully guarded as the sale of poisons. No druggist is allowed to sell strichnine unless he knows the use to which it is to be put; no reputable merchant would sell a can of dynamite to a child or a person ignorant of its nature. Yet every person with money enough to do it can walk into a store and purchase pistols and cartridges with as much ease as he can purchase tea or nails. And yet experience proves that the pistols slay hundreds where dynamite and poison slay only in isolated instances. The sale and use of weapons needs to be restricted. They were necessary to the pioneers, when a hostile Indian might lurk behind every stump, and they may still be necessary where bandits and brigands roam the country. But the average citizen of Ohio has no need for them, and they should be kept out of the hands of all save those who need them, and who are licensed to carry them.

Now an extra session of the legislature is talked of to unmake some of the laws made by the general assembly last winter. Recent decisions of the supreme court are a sad commentary on the folly of rushing bills through the legislature without analyzing their provisions and studying their probable effect. Not only is the supreme court stripped of a great portion of its authority, but the city of Cleveland is likely to be deprived of a government; county salary laws, instead of being simplified, have been made chaotic, and other measures that were thought to have been fully debated and duly considered are found to be unconstitutional. With a state attorney general always on hand to advise the legislature and with a great portion of its membership made up of lawyers, such a showing is inexcusable. When will men, who are

instructed with duty of legislating for a great state, learn that haste makes waste, and that laws, in order to stand the tests of the courts, must state what they mean in terms not to be misconstrued?

Ohio has a new lieutenant governor. His duties, just at present, are not likely to prove burdensome.

King Edward and his people are both to be congratulated.

POTTERY NEWS

It is probable, says a Trenton paper, that within a short time the Trenton saggers will withdraw from the Kilmen, Lipper and Saggers' local and form an independent local of their own. A special meeting of the pottery trade was held last night at the headquarters of the National Brotherhood of Operative Potters, in the Ribman building, when the question received a lengthy discussion. At present, with three trades affiliated to the Kilmen, Lipper and Saggers' local, the saggers claim that their interests cannot receive proper attention, because they are in the minority. They hold that most of the meetings are taken up in the discussion of matters pertaining to the Kilmen.

There are enough organized saggers to form a local of their own, and they claim that if they were provided with a separate organization they would be better able to pursue their efforts to obtain new members. The proposition for a separate union is looked upon with favor by the Brotherhood officials, and it is likely that in the near future the saggers will secure a decree of separation for which they have petitioned.

The prediction is made that the manufacturing potters of this city will be offered an exceptionally large fall trade. It is a known fact that trade with the local manufacturers during the past six months was not up to expectations, and the same can possibly be said with a degree of conservativeness of the pottery industry all over the country. But the population of the country is increasing, and the use of ware will be continued just the same. Inasmuch as the jobbers and retailers have not been buying heavy, at some time in the near future their stock will become quite low. No need to mention the result when such conditions prevail with the buyer. His stock is replenished, orders commence to come in and business is once more at its desired standard. Such are the conditions which confront the manufacturers for the closing six months of the year. The future is most bright for the manufacturers of this city, and more than one manufacturer has said so within the past fortnight.

It was stated yesterday by a member of the Vodrey Pottery company that the company was already commencing to close down its plant for a short time, but this work would require about a week's time. By this it will be seen that the shop will close down about next Thursday evening. How long this and other shops in the city will be closed cannot be told at this time. It is learned that a number of improvements will be made in several of the shops, and when operations are again resumed each plant will be in the best possible shape.

General Manager Thomas Price, of the Union Potteries company, located at Toronto, was in the city yesterday and spent several hours at the Union. He stated that the Chelsea at New Cumberland was in full operation, but that the plant would close some time next week for the July vacation. An excellent business is being done both at the Chelsea and at the Union. At the latter plant not a piece of ware is being made for stock.

The youthful reporter for a local paper who is said to have never seen inside a pottery until he came to this city a few weeks ago, gave the startling news a few days ago that a packer at the East Liverpool plant had so badly cut his arm that he would not be able to work for several weeks. The truth was that the packer had scratched his finger on a nail, something that is most common in a packing department.

Samuel Myler, who has been working on the glaze end at the D. E. McNicol plant for some time, is now located on the glaze end at Laughlin No. 2, under James Elliott. The vacancy at the McNicol plant will not be filled for a while, as there are eight men now in this crew.

George Smith, secretary of local union No. 9, is now bench boss at the East Liverpool during the absence of Peter Noficer, of Chester, who is spending a few months across the water. When work is slack at the East Liverpool Smith is employed on the glaze end at Brunt's.

J. A. Stillwell, a presser at Cartwright's pottery, is laid up with a fungous growth on his neck, and will go to Pittsburgh shortly to have an operation performed.

The several plants operated by the Laughlin China company will close down tomorrow evening for a period of two weeks. The company is pushing matters to the utmost, and when the big plants again resume work will be rushed in all departments at the several plants.

Kilmen's local No. 9 will hold an important session in Brotherhood hall this evening. It is expected that a

report of the auditing committee will be present at this session, so that the officers elected a few weeks ago will be able to take their seats next week.

James McDermott, who has been employed as cash boy at the McNicol pottery for several months, is now located at the C. C. Thompson pottery. For his age he is considered one of the best in that branch of the business.

James Kinney, a popular employee at the Dresden, is spending a few days at Atlantic City. He left for that resort yesterday in company with James Luster, a turner at the Laughlin No. 2. Mrs. Luster was also in the party.

Walty Smith, a pottery worker of this city, has accepted a conductorship on the consolidated lines of the Monongahela division of the Pittsburg railroads, and left yesterday to go on duty.

Packers' local No. 25, and dippers' local No. 18, will meet in their regular sessions this evening. Business of importance is to be transacted at these sessions.

Part of the kiln crew at the Taylor, Smith & Taylor pottery are off duty now. The rest of the crew will go off duty Saturday until after the Fourth.

The regular meeting of mould makers' local No. 22 was held Wednesday evening, but routine business occupied the entire session.

William Jackson is a new saucer jiggerman at the Union. He commenced work a few days ago.

Frank Rappold, a prominent pottery worker, left for a two weeks' outing at Atlantic City.

Miss Camelia McDonald has taken a position at the Union as a finisher.

NO COUNCIL MEETING

A Quorum Not Secured—Paving Ordinance Prepared. Work to Cost \$10,000.

Council failed to obtain a quorum last night. The only members showing up on time were Riley, Huff, Solicitor Marshall and Clerk J. S. D. Mercer. Councilmen Wetzel and Wells appeared too late to establish a quorum, but the latter gentleman stated that a quorum would be present on time at the regular meeting next Thursday night.

The important matters awaiting consideration is an ordinance ordered prepared by the solicitor for the paving of one square on First street, four squares on Carolina avenue and to consider the advisability of adding another square to the ordinance; two squares on Virginia avenue and one square on Second street.

It is estimated that the cost to the

That of Good and Spurlock, Indicted for Selling Intoxicants.

E. S. Good and Robert Spurlock, who are to be tried in the common pleas court at New Cumberland next Wednesday for sale of an alleged intoxicating drink called "Rikk," had their preliminary hearing yesterday and were bound over to court in the sum of \$200 each, with John Shrader as bondsman for both.

The other matter to be considered is the grading on a part of Third street.

Good and Spurlock pleaded not guilty to the indictments.

THE UNION SCALE

Is Wanted by Chester Mill Men by the 15th of Next Month.

It is reliably stated that the Chester mill officials have been given until the 15th of July to make a decision on paying the union scale. The employees, it is understood, will not insist on the full recognition of the union, but will be satisfied with an open shop paying the union scale.

Chinese Missionary Lectures.

Miss Mabel Sia, the Chinese missionary, aged 2, delivered an interesting lecture in the M. E. church Thursday evening to a large audience. She was attired in native costume. She has been in this country about four years, at a western seminary. Miss Sia was born of Christian parents, speaks English fluently, and gives an interesting account of the customs of her native land.

Big Shipments of Wool.

About 25 or 30 farmers came into Chester this morning making their wool deliveries to Lee & Miller at Chester depot. Three cars will be shipped from that point, four cars from Shippingport and one car at Industry, nearly all purchased in the vicinity of Hookstown.

Taken to Jail.

Officer Elliott took Martin, the colored man arrested for stoning street cars, to New Cumberland yesterday, and thence the prisoner will be taken to the Wheeling jail to serve out his time of commitment. Fleming, the other man arrested, settled his fine through Pittsburg friends and was released.

CHESTER NOTES.

A number of street cars are now being repaired at the power house.

Miss Lizzie Plankinton, of Carolina avenue, who has been quite ill, is recovering.

Robert Reed, is the Hookstown farmer who owned the cattle recently bitten by a mad dog, and other farmers in that vicinity fear that a number of their animals have been bitten.

MAKE THE PARAMOUNT DUTY OF TO-DAY AN IMMEDIATE REQUEST FOR FREE TICKETS GOOD ON

GRAND FREE EXCURSION

TO LA BELLE VIEW PLAN OF LOTS AT
Steubenville, Ohio, Saturday, June 28th

Take pen or pencil in hand at once, if you cannot call, and get in your request to either Pittsburg or Steubenville office of the

DUQUESNE REALTY CO.

for the pasteboards that will carry thousands to fortune on next Saturday.

We especially urge those who missed the first excursion to the great introductory sale on May 24th to get in NOW. Those who have already investigated La Belle View property will need no persuasion to influence them to come out again — they'll be the most eager buyers on the property!

Think of what your eyes will see at La Belle View now! Over 550 lots already sold and over 300 of them being improved as rapidly as their enthusiastic owners can push forward operations.

Beautiful new residences and modern business houses springing up on every side — some already completed!

Have you noticed the way prices have bounded upwards? The way first purchasers are hanging on to their goldmines — refusing 10, 15 and even as high as 25 per cent profit!

But notwithstanding this enormous advance, the Company has decided to give those who missed the first excursion a second chance to get in on the ground floor, and have not raised the prices for the second sale except on fifty very fine Boulevard lots that were

not staked or opened at last sale. On these fifty lots prices have been raised 10 per cent, but should have been raised 25 per cent, as investors who have bought the adjoining Boulevard lots are asking as high as 33 to 50 per cent advance.

La Belle View in its infancy is proving the greatest money-maker in modern real estate. What will the future bring for those who get in now! The most conservative conversant with real estate will tell you that this boom will over-reach all predicted bounds!

Come look at the towering giant industries the La Belle Steel Company is erecting! These alone will call more workmen to Steubenville than La Belle View plan of lots will hold homes for them to live in.

LA BELLE VIEW WILL HAVE EVERY MODERN CITY IMPROVEMENT.

LA BELLE VIEW is a part of Steubenville lying in the Third and Fifth wards on a beautiful tableland just above the Panhandle passenger depot. It will inherit every up-to-date convenience that belongs to a progressive municipality whose population is now 15,000 and growing at the rate of 42 per cent.

The Steubenville City Councils have appointed a committee to confer with the owners of La Belle View property for the purpose of accepting a magnificent park fronting a great distance along the Boulevard. This park will be improved with gushing springs of pure water, pleasure resorts, fine grounds, lakes, etc.

Arrangements have been made to pave a portion of the Boulevard and the business street. Other extensive city improvements will follow.

There will be city water, natural gas and electric light.

IN ARTISTIC STYLE THE VISITORS WON

Parkersburg Players Defeated East Liverpool With Apparent Ease.

BAD ERRORS WERE MADE

On the Part of the Home Team... Scored Only One Run—A Good Start Was Made But the Record Could Not Be Kept Up.

Although the members of the Parkersburg baseball team were dusty in appearance they had less trouble in administering a defeat to the local aggregation yesterday afternoon than any visiting team has had up to date. It certainly was done in an easy manner. For the first time this season Manager Walsh's stars witnessed the game as it should be played.

The visitors came from that part of the country whence experts of the diamond spring. With cheeks of tan and suits to match they filed into the park and were greeted with: "When did you get in? Did the Bennie come up today? How are the folks down about Long Reach?" It was not long until all the questions were answered, but not audibly. That was not necessary. They soon showed the inquisitive bunch that they came at least from a section where the game is understood and that was considered quite enough.

Without doubt they made no effort and won hands down, but notwithstanding, the locals have a plausible excuse to offer. In the first place it was a little the fastest crowd that they have yet competed with. Secondly no team can play ball successfully with a point in the infield weak. Had a good man been stationed at short the result might have been some different. Boyle is there in his old position, out when it comes to playing short he must take a back seat. The balls that floated in his neighborhood may have had a little fire attached to them, but it looked very much as if he should have frozen on to at least one during the entire contest. By allowing two of them to go whizzing past he donated two of the runs and perhaps lost the game, as such rank errors have a tendency to throw a team into a state of despondency and the "don't care" feeling.

Fred Hackathorn also had a hand in allowing the awful drubbing to be recorded. It is seldom that he has an off day and in fact he had played such an excellent game all the season that the fans were about convinced that he had cut them out entirely. Only one error was marked against him, but that was due to nothing but his great luck. Had a few runs been made later he would have been marked up another notch. When he played ping-pong with a foul and finally dropped it, the spectators were reminded vividly of the beautiful

little catches made by Doc Howard.

Until the third inning neither side scored and the prospects looked encouraging for a close game, but just as soon as the visitors piled up two runs, sounds produced by the cracking of knees were heard distinctly and the result was plainly visible. In this instance Emmerling landed on one for two bases and eventually scored the only run that was registered. After his spurt not a man reached third base. In the sixth the West Virginians clinched the deal with two hits and a like number of runs. All interest was then lost and they closed the ninth without raising a sweat. The score:

CANTON TO YOUNGSTOWN

Via Sebring, Salem and Washingtonville the Latest Proposed Street Railway.

Salem, June 27.—The affairs of the Stark Electric company are gradually shaping up and it is encroaching day by day upon Salem and contiguous territory. This company now has a street railway line from Canton almost to Sebring and is headed this way, with Salem as the objective point. The right of way to this city has practically been secured.

The company has a big power house near Sebring. Now it is a fact that street railway companies, which have in control cross country lines, do not build power houses at the terminals. This fact leads many to think that the company intends to touch Salem and then run on to Washingtonville, where it will be built from Columbian to Youngstown. Over that course the present power house would be just half way between Canton and Youngstown.

A THIRD VICTIM

Of the Mingo Wreck Dies in Hospital at Steubenville.

Steubenville, June 27.—Engineer Edward Wiggins, who was injured in Monday's wreck on the C. & P. railroad at Mingo Junction, and who has since been at Gill hospital, died there yesterday, making the third victim of the awful wreck.

Engineer Wiggins' death was due to inflammation of the brain. He sustained a cut across the top of his head in the wreck which extended to the bone. He was thrown against the fire box with awful force.

He was a single man, lived in Chicago, and was formerly an engineer on the Vandalia railroad. He was 30

years old. Conductor Hanniford is still improving and will be out in a few days.

VICTORY FOR IMPERIALS

In a Ball Game With the Carroll Club Team at Rock Springs Park.

The Carroll club and the Imperial baseball teams played at Rock Springs park yesterday afternoon. The Imperials won by a score of 9 to 6. The batteries were Mays and Maley, pitchers, and Daley, catcher for Carrolls; Hill pitcher, and Hanlon, catcher for the Imperials. The Carrolls could not hit Hill, and made but one hit during the game. The Imperials made 9 runs, 11 hits and 3 errors; the Carrolls 6 runs, 1 hit and 5 errors.

Zanesville Mayor Fined.

Zanesville, June 27.—Mayor Holden was able to appear before Police Judge Reed, yesterday, to answer to charges of contempt. He pleaded guilty, made a comprehensive public apology and promised to refrain from interference in police court affairs hereafter. He was then fined \$100 and ordered to pay the costs.

Assaulted and Skull Crushed.

Alliance, June 27.—C. C. Boggs, employed in the machine department at the Morgan works, was assaulted as he was on the street Wednesday night, his skull crushed and is likely to die. Three men attacked him and he says he knows them.

Venetian Incident Probably Closed.

Washington, June 27.—It is hoped in naval circles that the Venetian incident, as revived by the publication of the record of the Chicago court of inquiry, has dropped out of sight as a matter for international exchange. Signor Mayor Desplanches, the Italian ambassador, made his usual weekly call upon Dr. Hill yesterday, at the state department, on a business errand, and the Venetian affairs were not even alluded to. Hence the belief that it is a past issue.

On account of the great expense of traveling many cannot go abroad to avail themselves of this treatment, but with Mull's Grape Tonic, at a nominal cost,
